## Leak Detection Surveys

Detect a Leak & Reduce Water Loss Today

Protecting California's water supply is more important than ever as we brace for another year of drought conditions. The **California Rural Water Association (CRWA)**, in partnership with the **Department of Water Resources**, is offering **FREE** leak detection surveys for small water systems.

Locating and repairing leaks can:

- 💧 *Reduce Water Loss*
- 💧 *Save Money*
- 💧 *Reduce Contamination*
- 💧 *Improve Operational Efficiency*
- 💧 *Identify Necessary Infrastructure Repairs*
- 💧 *Reduce Property Damage*

If you are a small (including Tribal) water system with 3,000 connections or less, sign up for a free leak detection survey today! Please contact Ruby Viramontes at: [rviramontes@calruralwater.org](mailto:rviramontes@calruralwater.org) to get started.
