**RE: *NOTICE OF THE TRI-COUNTY WATER AUTHORITY'S ELECTION TO BECOME A
GROUNDWATER SUSTAINABILITY AGENCY FOR A PORTION OF THE TULARE LAKE
SUBBASIN***

Dear Mr. Nordberg:

Pursuant to California Water Code section 10723.8, under the Sustainable Groundwater Management Act ("SGMA"), the Tri-County Water Authority ("Authority") provides this notice to the Department of Water Resources ("DWR") of its election to become a Groundwater Sustainability Agency ("GSA") and to undertake sustainable groundwater management in the portion of the Tulare Lake Subbasin (DWR Subbasin 5-22.12) underlying the Authority's boundary as indicated on the map attached hereto as **Exhibit "A-1" and "A-2"**. The Authority is a joint powers authority consisting of two local public agencies - Angiola Water District and Deer Creek Storm Water District (**Exhibits "B-1" and "B-2"**).

On September 1, 2016, the Authority held a noticed public hearing in accordance with California Water Code Section 10723(b). Proof of publication in accordance with Government Code section 6066 is attached hereto as **Exhibit "C"**.

After holding the public hearing, the Authority's Board of Directors adopted Resolution Number 16-06, attached hereto as **Exhibit "D"**, electing to become a GSA over the portion of the Tulare Lake Subbasin within the Authority's boundary. The Authority intends to work collaboratively with other formed GSA's in the Tulare Lake Subbasin to jointly manage groundwater and to develop a Groundwater Sustainability Plan ("GSP"). The Authority's Board of Directors is planning to negotiate a memorandum of understanding, cooperative agreements, or other forms of agreements with other formed GSA's within the Tulare Lake Subbasin for the purpose of implementing a cooperative, coordinated structure for the management of groundwater and the development of a GSP.

Pursuant to California Water Code section 10723.2, the Authority shall consider the interests of all beneficial uses and users of groundwater, as well as those responsible for implementing a GSP. An initial list of stakeholders and interested parties include, but are not limited to the following:

- a) Holders of overlying groundwater rights, including:
 - 1) Agricultural users – The GSA area is composed almost entirely of agricultural users, including Nut Grower Commodity Groups and other Agricultural Use Growers located within the service boundaries.

- 2) Domestic well owners – There are domestic wells within the proposed GSA management area. However, because SGMA excludes “de minimis extractors” it is anticipated that the GSP will exclude domestic wells from such requirements.
- b) Municipal well operators – No incorporated cities within the GSA boundary.
 - c) Public Water Systems – Angiola Water District
 - d) Local land use planning agencies – Kings County
 - e) Environmental users of groundwater – U.S. Bureau of Land Management
 - f) Surface water users, if there is a hydrologic connection between surface and groundwater bodies – None.
 - g) The Federal Government, including, but not limited to, the military, and managers of federal lands – U.S. Bureau of Land Management.
 - h) California Native American tribes – None.
 - i) Disadvantaged communities, including, but not limited to, those served by private domestic wells or small community water systems – None.
 - j) Entities listed in Water Code section 10927 that are monitoring and reporting groundwater elevations in all or a part of a groundwater basin managed by the groundwater sustainability agency – Angiola Water District and Tulare Lake Basin Water Storage District

The Tri-county Water Authority (“Authority”) is aware of ten additional agencies currently identified as possible candidates to become Groundwater Sustainability Agencies (“GSA’s”) for the Tulare Lake Subbasin; namely Upper Tulare Lake GSA, North Fork Kings GSA, Westside Subbasin, Mid-Kings River GSA, The Greater Kaweah GSA, The Consolidated Irrigation District GSA, Mid-Kaweah GSA, Lower Tulare Lake Subbasin GSA, Southwest Kings GSA, and Alpaugh GSA. The Authority has been engaged in regular meetings with representatives of these agencies and will continue its due diligence to collaborate and cooperate with these agencies to implement a Groundwater Sustainability Plan for the Tulare Lake Subbasin.

The Authority intends to work cooperatively with stakeholders to develop and implement a GSP by collaborating with other qualified GSA’s in the Tulare Lake Subbasin. The Authority shall maintain a list of interested parties to be included in the formation of a GSP. Interested parties will have opportunities, both formal and informal, to provide input to the Authority throughout the process of developing, operating, and implementing the GSA and GSP. Such opportunities may include, but are not limited to, public comment during the Authority’s regular and special meetings, and at other times to be determined and noticed pursuant to Water Code section 10727.8(a). By this notification, the Authority has provided DWR with all applicable information in California Water Code section 10723.8(a).

Sincerely,

Matthew Hurley
Chairman, Tri-County Water Authority
