

The California Department of Water Resources (DWR) is raising the bar on state employment. DWR is currently holding continuous examinations for 90 positions statewide. If you have experience, *we are hiring*.

DWR is responsible for maintaining and operating the State Water Project, which is the largest state-built and operated multipurpose water and power system in the United States. The 701 miles of canals and pipelines provide drinking water for 23 million people and irrigation for 750,000 acres of farmland. The Project also provides power generation, year-round recreation, flood protection and helps maintain Delta water quality.
