May 16, 2014

Mr. Scott Weldy, General Manager
Apply Valley Ranchos Water Company
Post Office Box 7005
Apple Valley, California 92307

Dear Mr. Weldy:

The Department of Water Resources (DWR) has reviewed the Apple Valley Ranchos Water Company's (AVRWC) 2010 Urban Water Management Plan (UWMP) received July 14, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of AVRWC's 2010 UWMP has found that the plan has generally addressed the requirements of the CWC. Please note that the 2020 Target gpcd must be 95 percent or less of the five-year baseline (see Water Code 10608.22). In using Target Method 1, the 2020 gpcd should be 239, not 245. Please correct this in your 2015 Plan."

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is to acknowledge that AVRWC's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

If you have any questions regarding the review of the plan or urban water management planning, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Brostrom".
