

# APPLICATION EVALUATION FORM

## 2014 Water-Energy Grant Program

### FY 2014-2015

<b>APPLICANT</b>	Elsinore Valley Municipal Water District (EVMWD)	<b>GRANT AMOUNT REQUESTED</b>	\$858,625
<b>PROPOSAL TITLE</b>	Automated Metering Infrastructure DAC Implementation	<b>TOTAL PROPOSAL COST</b>	\$858,625

**PROPOSAL DESCRIPTION**

The project would implement an Automated Metering Infrastructure system among approximately 5,227 customers located primarily within the District's most disadvantaged communities. This project will enable EVMWD to more efficiently manage water demand by remotely managing metering assets, and allow EVMWD customers the ability to detect leaks, view water usage, set alerts, and gather reports about their home water system in real time through the wireless sensor network. This project will help both the District and customers reduce water and energy usage, which, in turn, will also help reduce greenhouse gas emissions and water and energy costs.

**PROPOSAL SCORE CRITERIA**

	Energy Savings (kWh/\$Million)	Water Savings (MG/\$Million)	DAC	Agreement Component	Funding Priority
<b>Rank</b>	High	High	No	Sufficient	2
<b>Original Value</b>	84,762,676	1,495.410			
<b>Adjusted Value</b>	-	-			

**TECHNICAL REVIEW SUMMARY**

Subject	Attachment	Application Review Comments
Calculation Review	Attachment 2	Concur with proposed water savings, energy savings, and GHG reduction calculations. No adjustments were necessary.
Agreement Components	Attachments 3, 4, and 5	Concur with agreement components and attachments meet the agreement component requirements, as outlined in the PSP.
DAC Benefit/Status	Attachment 7	All necessary disadvantaged community (DAC) benefit and status requirements were not met, as outlined in the PSP. Applicant does not demonstrate that at least 75% of the project benefit is directly received by the designated DAC.
