

**California Department of Water Resources**

San Joaquin Field Division Operations and Maintenance Center Drainage Culvert Replacement Project

**Certification of the Mitigated Negative Declaration and Adoption of a Mitigation Monitoring and Reporting Program for the Delta Dams Rodent Burrow Remediation Project.**

The California Department of Water Resources prepared an Initial Study and Mitigated Negative Declaration (IS/MND) in accordance with the California Environmental Quality Act (CEQA) to evaluate the environmental impacts of the proposed San Joaquin Field Division Operations and Maintenance Center Drainage Culvert Replacement Project. The proposed Project would include replacement of the existing arch corrugated metal pipe culvert with a new concrete box culvert, improvements to the upstream and downstream flow channels, and improvements to the connection to an existing drainage swale. The Draft IS/MND was submitted to the State Clearinghouse ([SCH] No. 2023120438) for public review from December 15, 2023 to January 16, 2024.

**Public Comments**

DWR received no comment letters.

**Lead Agency Contact Information:**

Agency Name: California Department of Water Resources  
Contact Person: Jennifer Worsley  
Mailing Address: 715 P St., Sacramento, CA 95814  
Phone: (916) 902-7189

**Certification:**

I hereby certify that the Lead Agency listed above has determined that it has complied with the CEQA for the project identified above and that the project is described in adequate and sufficient detail to allow the project's construction or acquisition.

I certify that the CEQA analysis for this project encompasses all aspects of the work to be completed and that all environmental impacts will be mitigated to a level of insignificance. The Mitigation Monitoring and Reporting Program is also hereby adopted.
