| <b>City/State/Zip:</b>  | <b>Butte Valley, CA 95965-8345</b>  |
| <b>Feedback:</b>        | <p><b>Dear Calif. Water Commission, and Governor Gavin Newsom, dtd. 7/14/20</b> The Sites Reservoir is not a healthy source of drinking water. The proponents of Sites are 'ignoring' the old mining Cities of 'Chrome' and 'Cinnabar' and placer Salt mine that will be under the reservoir when completed. This area is extremely windy and the evaporation rate will be about 1/3 each year increasing the toxic levels in the reservoir. If you Google these cities and mines they are easily identified. If this water is released into the Sacramento River it will kill any and all remaining fish. Please reconsider and Stop The Sites Reservoir Project. very sincerely, John Scott ps Please include me in all public information regarding the Sites Project.</p> |

Thank you
