## **Updated list of California water basin boundary modifications released by DWR**

The updated [list of California's basin boundary modifications](#) has been released by DWR. The list was developed using the process established by the Sustainable Groundwater Management Act for local agencies to request changes to their basin boundaries. The requests and other materials are available on DWR's [Basin Boundary Modifications](#) webpage.

## **Free forum offers information for groundwater sustainability agencies**

Groundwater sustainability agency (GSA) members and stakeholders are invited to a [free forum](#) on Thursday, March 21, in West Sacramento. The day will include [panel discussions](#) on coordinating GSAs to develop groundwater sustainability plans, and helping GSAs with stakeholder outreach and engagement strategies.

## **World Water Day to be observed next week, "Leaving no one behind"**

[World Water Day](#) is coming up next week on Friday, March 22. This year's theme is "Leaving no one behind." It reflects a United Nations (U.N.) sustainable development goal for everybody on the planet to have safe water by 2030. Details on the problem are available in this U.N. [fact sheet](#).

## **Save the dates for annual symposium on California water data**

Save the dates for this year's [California Water Data Science Symposium](#). It will be July 1 and 2, in Sacramento. The event enhances the connection between water-quality-monitoring science and data science in order to help the decision-making process for ecosystem management. The symposium also works to increase access to the growing amount of water data being collected by local and regional groups.

## **Dates announced for international water reclamation conference in Berlin, Germany**

The [12th International Conference on Water Reclamation and Reuse](#) will be June 16-20, in Berlin, Germany. Hosted by the International Water Association, the conference will focus on [overcoming water stress](#), which can result from drought or competing water uses. [Online registration](#) is open. Discount registration rates will be available through Sunday, March 31.

## **Reno set to host international irrigation and drainage conference in November**

The stage is being set for the [12th International Conference on Irrigation and Drainage](#). It will be held in Reno on Nov. 5-8. The conference will cover a variety of issues, including those related to groundwater, environmental water uses, technologies, and basin water management.
