

# Delta Conveyance Project

Modernizing California's Water Infrastructure | 2026

## Question: Will the DCP divert "more water"?

# No. The DCP will offset future losses.

Annual average deliveries by 2070 will be less than 2020. But the impact will be made less severe by the DCP.

### The DCP will help public water agencies:

-  **Fill storage** more frequently
-  Enter drought periods with **higher reserves**
-  **Impose fewer** periods of mandatory rationing
-  **Reduce severity** and frequency of shortages

### State Water Project Deliveries:
