

3.0 Individual Comments and Responses

3.1 Introduction

This chapter contains the comment letters received on the draft Central Valley Flood Protection Plan (released in December 2011), and the 2012 Central Valley Flood Protection Plan DPEIR. Following each comment letter are individual responses to those comments not addressed in Chapter 2.0, “Master Responses.” Section 3.1.1 describes the format of the responses to comments. Section 3.1.2 provides a list of the commenters on the DPEIR, the date of each comment, and the assigned letter identification codes. Sections 3.2 through 3.7 present the comment letters received on the DPEIR and comments made during the public hearings held on the project, along with the corresponding responses.

3.1.1 Format of Comments and Responses

Comment letters and responses to comments are arranged in the following order:

- Section 3.2: Federal Comments and Responses
- Section 3.3: State Comments and Responses
- Section 3.4: Local Comments and Responses
- Section 3.5: Group Comments and Responses
- Section 3.6: Individual Comments and Responses
- Section 3.7: Public Hearing Comments and Responses

Each letter and each comment within a letter have been given an identification code. Responses are numbered so that they correspond to the appropriate comment. Where appropriate, responses are cross-referenced with a master response. The full text of the master responses is provided in Chapter 2.0 of this FPEIR.

3.1.2 List of Commenters

Table 3-1 provides a list of all comments on the draft Central Valley Flood Protection Plan (released in December 2011), and the 2012 Central Valley Flood Protection Plan DPEIR, and who commented during the public hearings.
