

Big Spring Area Groundwater Basin

- Groundwater Basin Number: 3-47
- County: San Luis Obispo
- Surface Area: 7,320 acres (11.4 square miles)

Basin Boundaries and Hydrology

Big Spring Area Groundwater Basin underlies a valley in southern San Luis Obispo County. The basin is bounded by Miocene age marine rocks (Jennings 1958). The valley is drained by a tributary to San Juan Creek. Precipitation ranges from 8 to 10 inches per year.

Hydrogeologic Information

Water Bearing Formations

The main water-bearing unit is Quaternary age alluvium.

Restrictive Structures

No information is available.

Recharge Areas

No information is available.

Groundwater Level Trends

No information is available.

Groundwater Storage

Groundwater Storage Capacity. No information is available.

Groundwater in Storage. No information is available.

Groundwater Budget (Type C)

No information is available.

Groundwater Quality

Characterization. No information is available.

Impairments. No information is available.
