

Last Chance Creek Valley Groundwater Basin

Groundwater Basin Number: 5-57

County: Plumas

Surface Area: 4,660 acres (7 square miles)

Basin Boundaries and Hydrology

The Last Chance Valley Groundwater Basin is a narrow east/west trending basin located south of Honey Lake. The basin is bounded to the south by Tertiary pyroclastic rocks and to the north by Miocene volcanics, Mesozoic granitic rocks, and Tertiary pyroclastic rocks. Eocene basalt borders the basin in the west (Lydon 1960). Last Chance Creek drains the basin to the west. Annual precipitation ranges from 17- to 23-inches, increasing to the west.

Hydrogeologic Information

Hydrogeologic information was not available for the following:

Water-Bearing Formations

Groundwater Level Trends

Groundwater Storage

Groundwater Budget

Groundwater Quality

Well Characteristics

	Well yields (gal/min)
Municipal/Irrigation	NKD
	Total depths (ft)
Domestic	NKD
Municipal/Irrigation	

NKD – No Known Data

Active Monitoring Data

Agency	Parameter	Number of wells /measurement frequency
	Groundwater levels	NKD
	Miscellaneous water quality	NKD

NKD – No Known Data

Basin Management

Groundwater management:	No known groundwater management plans, groundwater ordinances, or basin adjudications.
Water agencies	
Public	None
Private	None
