Notes:

* Cultured adipose clipped Delta Smelt. This smelt was considered a sub-adult, and although under the size threshold, it was a released fish. Only sub-adults and adults were released, no YOY fish.

**SWP shut down export for facility maintenance but did predator flushes.

NC: Larval collections have not started.

NL: No larval sampling because of facility shutdown.

NS: No salvage because of facility shutdown.

SE: Larval sampling ended for the water year.

W: Indicates samples taken and awaiting lab processing or reporting.

Y/N: Y indicates that larval fish < 20 mm FL were found, while N indicates no detection.

Notes:

* Cultured adipose clipped Delta Smelt. This smelt was considered a sub-adult, and although under the size threshold, it was a released fish. Only sub-adults and adults were released, no YOY fish.

**SWP shut down export for facility maintenance but did predator flushes.

NC: Larval collections have not started.

NL: No larval sampling because of facility shutdown.

NS: No salvage because of facility shutdown.

SE: Larval sampling ended for the water year.

W: Indicates samples taken and waiting lab processing or reporting.

Y/N: Y indicates that larval fish < 20 mm FL were found, while N indicates no detection.
