

**NOTICE TO STATE WATER PROJECT CONTRACTORS****Date:** May 14, 2026**Number:** 26-05**Subject:** DWR Increasing State Water Project Allocation to 45 Percent and Increasing North of Delta Allocation to 60 Percent**From:** Original signed by  
**John Yarbrough**  
**Deputy Director, State Water Project**  
**Department of Water Resources**

California experienced record heat and dry conditions in March, which triggered an early snowmelt and increased concern about stored water supply conditions. In contrast, April saw well-above average precipitation which provided additional runoff, improved storage conditions, and helped meet Delta requirements without the need to rely on stored water releases. Because of these improved conditions, the Department of Water Resources (DWR) is increasing the State Water Project (SWP) Allocation from 30 percent to 45 percent of most SWP contractors' requested Annual Table A Amounts for 2026 and increasing the North of Delta (NOD) Allocation from 45 percent to 60 percent, as shown in Attachment A – 2026 Allocation.

To determine the available SWP water supplies, DWR considers various factors including SWP contractors' 2026 carryover supplies and demands, existing storage in SWP conservation facilities, estimates of future runoff, near-term and seasonal climate forecasts, SWP operational, contractual, and regulatory requirements set forth in the Federal Endangered Species Act and California Endangered Species Act, and water rights obligations under the State Water Resources Control Board's authority.

DWR will develop updated water delivery schedules for this allocation by prorating schedules submitted by the SWP contractors in October 2025 (as part of initial requests) or as revised with any subsequent updates. If an SWP contractor foresees any changes to their water delivery schedule, please communicate such changes to DWR in a timely manner.

If you have any questions or need additional information, please contact me at [John.Yarbrough@water.ca.gov](mailto:John.Yarbrough@water.ca.gov).

Attachment A: 2026 State Water Project Allocation, updated [Date TBD]
