

NOTICE TO STATE WATER PROJECT CONTRACTORS

Date: March 23, 2021

Number: 21-06

Subject: 2021 State Water Project Allocation Decrease – 5 Percent

From: Original signed by
Ted Craddock
Deputy Director, State Water Project
Department of Water Resources

Due to the persistent dry conditions, the Department of Water Resources (DWR) is decreasing the allocation of 2021 State Water Project (SWP) water for long-term contractors from 422,848 acre-feet to 210,266 acre-feet. Based on the recent low amount of precipitation and runoff, and an assessment of overall water supply conditions, SWP supplies are projected to be 5 percent of most SWP contractors' 2021 requested Table A amounts, which totals 4,172,786 AF. Attached is the revised 2021 SWP 5 percent allocation table.

This allocation is made consistent with the long-term water supply contracts and public policy. DWR's approval considered several factors including existing storage in SWP conservation reservoirs, SWP operational constraints such as the conditions of the 2019 Biological Opinions for federally listed species, the 2020 Incidental Take Permit for State listed species and the 2021 SWP contractors' demands. DWR may revise this and any subsequent allocations if warranted by the developing hydrologic and water supply conditions.

To develop the 5 percent schedule, DWR will scale down the current long-term SWP contractors' 15 percent schedules that were submitted in October 2020 (as part of the initial requests), unless SWP contractors submit updated schedules. DWR will send the approved monthly water delivery schedules to the long-term SWP contractors.

If you have any questions or need additional information, please contact John Leahigh, Water Operations Executive Manager, at (916) 651-2447.
