

CDFW accepting proposals for restoration projects that provide greenhouse gas benefits

The California Department of Fish and Wildlife (CDFW) is now accepting proposals for wetland restoration projects to provide greenhouse gas benefits under its Wetlands Restoration for Greenhouse Gas Reduction Program. For fiscal year 2017–18, \$12.75 million is available from the Greenhouse Gas Reduction Fund for projects. For more information, click [here](#).

Antioch Dunes National Wildlife Refuge tours offered

Every Second Saturday, docents lead FREE tours of the Antioch Dunes, a National Wildlife Refuge that is otherwise closed to the public. The Dunes are home to the endangered Antioch Dunes evening primrose, the Contra Costa wallflower, and the Lange's metalmark butterfly. Put on your hiking shoes and grab your water bottle to explore the only wildlife refuge in the country that has been established to protect endangered plants and insects. The tour for this Saturday, July 14, will be from 10:00 a.m. to 11:00 a.m. at the Antioch Dunes (801 Wilbur Ave., Antioch). Click [here](#) to view the map. All ages welcome. No reservations required. No restroom facilities. Call 707-769-4200 for more information or visit the [website](#).

Water Storage Investment Program (WSIP) posts final scores

On June 27 and 28, the California Water Commission approved final scores for WSIP applications. The scores and related information can be found at the bottom of the [WSIP Project Review Portal](#). For more information, please see the [press release](#). For all final component scores, see the [Summary of WSIP Final Application Scores](#).

Sacramento district projects get \$2.1 billion in supplemental appropriation

Sacramento District projects funded with U.S. Army Corps of Engineers supplemental appropriations include flood risk management upgrades on the American and Sacramento rivers in Sacramento, dam remediation at Isabella Lake, reservoir enlargement at Success Lake, levee improvements on the Marysville Ring Levee, and continued upgrades at Folsom Dam. New Delta RMP publications on pesticides and nutrients

The Delta Regional Monitoring Program has released three new reports, one on contaminants in the Delta, and two more on the state of knowledge related to nutrients in the Delta. For the contaminants report, click [here](#). For the report on Delta nutrient status, click [here](#). For the report on Delta nutrient monitoring, click [here](#).

Central Delta Corridor conservation strategy

The [Central Delta Corridor Partnership](#) will be convening a design workshop for two days in August. At the workshop, the partners, conservation specialists, and interested members of the public will review opportunities and constraints in the Central Delta Corridor to enhance ecosystem function, support agricultural sustainability, and contribute to other regional objectives through investments on the publicly-owned lands in the corridor.

The [Sacramento-San Joaquin Delta Conservancy](#), along with its partners, will host a day and a half public charrette workshop from Wednesday, August 8 (9:00 a.m. to 4:00 p.m.) to Thursday, August 9 (1:00 p.m. to 4 p.m.) at the Jean Harvie Community Center (14273 River Rd, Walnut Grove). Click [here](#) to view map.
