

Water We Do! It's Up to Me and You (Abridged)

Recommended Grade Level K–3

Suggested Activities:

1. Have students brainstorm answers to the following questions. After watching the video, return to the lists and discuss.
 - a. How/where do we use water?
 - b. Who needs water?
 - c. What can kids do to save water?
2. The following Project WET 2.0¹ activities provide opportunities for students to learn about water conservation in greater detail:
 - a. Common Water
 - b. My Water Footprint
 - c. Money Down the Drain
3. California Education and The Environment (EEI)² unit K.3.c – A Day in My Life – covers where natural resources come from, how we use them, and how to conserve them.

¹ For information on using the Project WET curriculum or bringing a training to your school contact www.projectwet.org/where-we-are/partners or education@water.ca.gov

² For information on how to order EEI materials visit www.californiaeei.org/curriculum/howtoorder/ or email EEI@calrecycle.ca.gov
