

## IRWM PLAN ADOPTION FORM

To simplify submittal and tracking of proof of plan adoption, DWR is providing a single process to collect and track adoption information. Regional Water Management Groups (RWMGs) need to submit scanned copies of signed plan adoption resolutions or other appropriate documentation from RWMG members and project proponents along with this form. DWR will record, track, and transmit the information to DWR grant managers and application review staff. RWMGs do not need to wait until all agencies adopt the plan; proof of plan adoption can be submitted as it is received. This completed form, along with scanned proof of adoption, should be emailed to Craig Cross at [Craig.Cross@water.ca.gov](mailto:Craig.Cross@water.ca.gov). If you have questions, please contact Craig at (916) 651-9204.
