Notes:

Funding Recommendations

A — DWR is recommending award of General Implementation Funds to be used to fund DAC Implementation Projects, in accordance with the PSP (Page 29, VII. AWARD PROCESS), which allows General Implementation Fund allocations to be used for DAC Implementation Projects. Please see the following notes for information specific to the projects:

A1— This project is in a DAC area and provided adequate justification to show the required DAC benefit per the PSP (Page 10, Funding), however, there is insufficient DAC Implementation Funding available as it has been utilized to award other DAC projects according to the DAC Proposal score. Based on the project eligibility and fund availability, DWR is recommending full or partial award (as indicated above) of the "DAC Funding Requested" from the allocated general implementation funds in accordance with the PSP (Page 29, VII. AWARD PROCESS).

Eligibility

B— Proposal did not include sufficient justification to support that at least one project addresses AB 1249 contaminants. Provide justification of why a project that addresses AB 1249 contaminants was not included in the application.

C—Project requested cost share waiver, however, DAC benefits were not fully justified. Submit additional documentation clearly stating the percentage of the project benefits provided directly to a DAC and/or provide evidence of additional cost share.
