

**NOTICE TO STATE WATER PROJECT CONTRACTORS****Date:** DEC 21 2012**Number:** 12-12**Subject:** 2013 State Water Project Allocation Increase to 40 Percent**From:**

---

**Carl A. Torgersen**  
**Deputy Director**  
Department of Water Resources

The Department of Water Resources (DWR) is increasing the allocation of 2013 State Water Project (SWP) water for long-term contractors from 1,251,721 acre-feet to 1,668,958 acre-feet. Based on recent precipitation, runoff, and current water supply conditions, SWP supplies are projected to be 40 percent of SWP contractors' 2013 requested Table A amounts, which total 4,172,396 acre-feet. Attached is the revised 2013 SWP 40 percent allocation table.

This allocation increase is made consistent with the long-term water supply contracts and public policy. DWR's new approval considered several factors including existing storage in SWP conservation reservoirs, SWP operational constraints such as the conditions of the recent Biological Opinions for delta smelt and salmonids, and the longfin smelt incidental take permit, and 2013 contractor demands. DWR may revise allocations if warranted by the year's developing hydrologic and water supply conditions.

Based on this allocation increase, DWR will use the current long-term SWP contractors' 30 percent schedules to arrive at the new 40 percent schedules, unless contractors submit updated schedules. DWR will send the approved monthly water delivery schedules to the long-term SWP contractors.

If you have any questions or need additional information, contact Robert Cooke, Chief of DWR's State Water Project Analysis Office, at (916) 653-4313.
