

## Horse Lake Groundwater Basin

- Groundwater Basin Number: 6-97
- County: Lassen
- Surface Area: 3,800 acres ( 5.3 square miles)

### Basin Boundaries and Hydrology

The Horse Lake Groundwater Basin is located south of Madeline Plains and east of Eagle Lake. The basin encompasses Horse Lake and is bounded to the southeast by Pleistocene volcanic basalt and on all other sides by Pliocene basalt with outcrops of Pleistocene basalt (Gay 1960). Faulting in the region transects the basin in both northwest and north-northeast directions. The primary water-bearing formation in the basin is Holocene alluvium. Annual precipitation is approximately 13- to 19-inches, increasing to the south.

### Hydrogeologic Information

Hydrogeologic information was not available for the following:

***Groundwater Level Trends***

***Groundwater Storage***

***Groundwater Budget***

***Groundwater Quality***

### Well Characteristics

<b>Well yields (gal/min)</b>	
Municipal/Irrigation	NKD
<b>Total depths (ft)</b>	
Domestic	687 (1 Well Completion Report)
Municipal/Irrigation	

NKD – No known data.

### Active Monitoring Data

<b>Agency</b>	<b>Parameter</b>	<b>Number of wells /measurement frequency</b>
	Groundwater levels	NKD
	Miscellaneous water quality	NKD

### Basin Management

Groundwater management:	No known groundwater management plans, groundwater ordinances, or basin adjudications.
Water agencies	
Public	None
Private	None
