The Department of Water Resources (DWR) has prepared these Guidelines to provide information for applicants on the Dam Safety and Climate Resilience Local Assistance Program (DSCR). Please read the document in its entirety including all Appendices.

Section 1 Program Description and Funding Authority

These Guidelines govern the DSCR solicitation using funds authorized by the California Budget Act of 2023 (Stats. 2023, Ch. 51, Sec. 35.) (Budget Act).

Senate Bill 122 added Part 4, Section 6700 to the Water Code to create a new program, the Dam Safety and Climate Resilience Local Assistance Program, within DWR for the purpose of providing state funding for repairs, rehabilitation, enhancements, and other dam safety projects at existing state jurisdictional dams and associated facilities that were in service prior to January 1, 2023.

Approximately 10 percent of the 1,236 State jurisdictional dams regulated by DWR's Division of Safety of Dams (DSOD) have been assigned a condition assessment classification of less than "Satisfactory" (e.g., they have noted deficiencies that need remediation). In many cases, these dams pose a significant threat to communities downstream. As an interim risk reduction measure, more than 40 of these dams have had reservoir restrictions imposed. The loss of water storage from these reservoir restrictions is about 350,000 acre-feet. Many dam owners, even those with sources of funding, do not have the ability to secure funding for dam remediation or improvement projects. This program will provide much-needed grant funding for the repair, retrofit, and rehabilitation of these critical infrastructure facilities, reduce the unacceptable risks to the public, and regain lost storage capacity that is needed to face California's climate-related water shortages.

Section 2 Eligible Funding Recipients

Eligible funding recipients include any California public agency, nonprofit organization, public utility agency, mutual water company, or private entity that owns a state jurisdictional dam and associated facilities. Proposals submitted shall include a detailed statement to demonstrate how the proposed dam safety project has a clear and definite purpose that addresses project benefits identified in Section 3.3. When applicable the statement shall also include how the project addresses identified dam safety deficiencies.

Section 3 Project Types and Eligibility Criteria

Projects funded under the Program must meet the criteria described in the following sections. The applicant shall be responsible for quantifying the public benefits and providing this information to the DWR.

3.1 Eligible Dams

To be eligible for DSCR funds, the following conditions must be met:

- A. The dam must be a California State Jurisdictional Dam.
- B. The dam must have a downstream hazard classification, as determined by DSOD, of Significant, High, or Extremely High.
- C. The dam owner must be in compliance with DSOD's dam safety program.
- D. The dam owner must not have any delinquent annual DSOD fees.

3.2 Eligible Project Types

Dam safety and climate resilience projects eligible to receive funding under the program include the following:

- A. Dam repairs to allow water storage to full capacity.
- B. New spillway and spillway repair projects at existing dams.
- C. Dam and reservoir seismic retrofit projects.
- D. Enhancement of water supply and downstream flood risk reduction such as implementation of Forecast-Informed Reservoir Operations.
- E. One-time projects to remove sediment resulting from wildfires or extraordinary storm events.
- F. Improvements to dam appurtenances to address dam safety-related deficiencies identified by the department.

The Department shall not award any funds under this section for raising dams, increasing reservoir space, or otherwise increasing water impoundment.

3.3 Project Benefits

Dam safety and climate resilience projects must provide one or more of the following public benefits, in order of priority:

- A. Protection of public safety.
- B. Restoration of water storage.
- C. Flood risk reduction.
- D. Enhancement of water supply reliability.
- E. Enhancement, protection, or restoration of habitat for fish and wildlife.
- F. Protection of water quality.

3.4 Eligible Project Activities

Within each eligible project type the following activities are eligible for funding:

- A. Administrative
- B. Planning

- C. Engineering Design
- D. Construction and construction oversight

3.5 Additional Eligibility Criteria

- A. Projects should address dam safety related deficiencies and deficiencies that have resulted in reservoir restrictions being implemented.
- B. Projects must take into account the current and future impacts of climate change, including the economic damages and financial liabilities associated with those impacts, when planning, designing, building, operating, maintaining, and investing in state infrastructure, per Public Resources Code section 71155.
- C. Projects must promote State planning priorities, which are intended to promote equity, strengthen the economy, protect the environment, and promote public health and safety in the State, including in urban, suburban, and rural communities, as detailed in Government Code § 65041.
- D. Projects must provide workforce education and training, contractor, and job opportunities for disadvantaged communities, where practicable.
- E. Commit to provide operation and maintenance of the project for the expected life of the dam following completion of repairs, rehabilitation, or enhancements.
- F. Act in accordance with the state's dam safety program.

Section 4 Additional Project Considerations

This section describes additional considerations that applicants may incorporate into their project proposals in addition to the preceding project eligibility criteria. The following is a list of ideas, potential project benefits, and features to be considered. Projects are not required to have any additional project considerations to be eligible for funding.

4.1 Additional Implementation Project Considerations

When scoping a project:

- A. Demonstrate actions that will prohibit or reduce risk intensification.
- B. Protecting or enhancing existing natural habitats, or providing new ones, to leads to conjunctive regional habitats. Consider acquiring land if necessary.
- C. Consider ways to improve water quality and other natural resources.
- D. Consider projects that restore natural fluvial and related biological processes, including protecting riparian habitats through enhanced dam operations.
- E. Consider seasonal diversion of floodwater flows onto agricultural lands for temporary floodplain and aquatic food creation or groundwater recharge.

- F. Consider including one-time costs to create or improve flood-related emergency notification, early warning systems, or response procedures.
- G. Describe benefit-to-cost ratio and the valuation methods used.
- H. Describe studies of alternatives that were eliminated prior to deciding on the proposed project.

4.2 Special Considerations

Special consideration may be given in the form of supplemental points to projects that directly benefit disadvantaged communities (DAC) or severely disadvantaged communities (SDAC). The Department will be using the Climate and Economic Justice Screening Tool¹ to determine if the project is benefiting a DAC or SDAC. Specifically, the Department will utilize the maps and dataset for the climate change category within the screening tool to identify if the project is benefiting the DAC or SDAC and reducing climate change burdens on these communities. The Department will download the Climate and Economic Justice Screening Tool maps on the application due date, changes to the maps after the application due date will not be considered during the ranking process.

Section 5 Grant Awards

Applicants for competitive grant funding under the Program must file a complete grant proposal package with DWR during an open solicitation period. Proposal requirements will be prescribed in a Proposal Solicitation Package (PSP) released by DWR when funding is available. DWR will not revise the proposal requirements during any period in which competitive project proposals are being solicited. Applicants are required to refer to the Program website for current status of any proposal solicitations. Local cost-share requirements for all projects funded under these Guidelines are described as follows. A dam that is awarded funding would remain eligible to apply for future years of this program so long as all other program requirements are satisfied.

5.1 Local Cost-Share

A minimum match of 50 percent (%) of local cost-share (matching funds) is required. Local cost-share may include, but is not limited to federal funds, local funds, or donated services from non-State sources.² Other State funds, if part of the funding package for the proposal, must be included in the total proposal cost but cannot be used as local cost-share.

¹ The Climate and Economic Justice Screening Tool website: [Explore the map - Climate & Economic Justice Screening Tool \(geoplatform.gov\)](https://www.geoplatform.gov)

² If the Applicant is a State agency, then the “local” cost share may include funds from State sources.

5.2 Local Cost-Share Reduction

Applicants may propose a reduced local cost-share of up to 50% (making the project 0% local cost share) if the project would cause extreme financial hardship to the grant recipient and the dam poses an unacceptable public safety risk. To substantiate the reduced local cost share, the applicant should submit substantiating documentation with the proposal. The Department will determine extreme financial hardship by considering the information provided such as the dam owner's assets, liabilities, income, and expenses. The Department will factor in the number of rate payers the dam services, the average amount collected annually for dam operations and maintenance in comparison to the proposed project costs, and the applicant's ability to apply for a loan when determining extreme financial hardship.

Proposed cost share reductions will be considered as follows:

Project Consideration	Cost Share Reduction Amount (percentage can be additive)
Ability to pay	Up to 30%
Dam poses an unacceptable safety risk	Up to 20%
Improvement of the dam's condition assessment	Up to 10%
Restoration of water storage	Up to 10%
Projects that contribute to environmental enhancement at the dam or downstream and upstream from the dam	Up to 7%

Section 6 Funding Agreement Requirements

For all projects awarded funding by DWR, the funding recipient will need to execute a funding agreement with the State. A funding agreement template is attached as Appendix H. The following is a partial list of requirements that will be contained within any funding agreement.

6.1 Eligible Project Costs

State funding may only be used for eligible project costs. These include the reasonable costs of environmental evaluation/permitting, project management, studies, design, land and easement acquisition, preparation of environmental documentation, environmental mitigations, monitoring, project construction, and construction management. Reimbursable administrative expenses are the necessary costs incidentally but directly related to the funded project, including the portion of overhead and administrative expenses that are directly related to the project.

Eligible project costs include those eligible costs incurred after the date of the notice of award from DWR. Note that only incurred project costs are reimbursed by DWR. Advanced funds will not be provided.

Costs that are not eligible include:

- A. Operation and maintenance costs.
- B. Routine maintenance.
- C. Purchase of equipment that is not an integral part of the funded project.
- D. Establishment of a reserve fund.
- E. Support of existing agency requirements and mandates by enforcement action by DSOD.
- F. Payment of principal or interest on existing indebtedness, any interest payments, or costs associated with project financing.
- G. Costs incurred as part of any necessary response and cleanup activities required under the Comprehensive Environmental Response, Compensation, and Liability Act; Resource Conservation and Recovery Act; Hazardous Substances Account Act; or other applicable law.
- H. Duplicate work to obtain new data that the State already has available, unless previously approved by the State or waived by the State.

6.2 Conflict of Interest and Confidentiality

All participants are subject to State conflict-of-interest laws. Failure to comply with these laws, including business and financial disclosure provisions, will result in the proposal being rejected and any agreement being declared void. Other legal action may also be taken. Applicable statutes include, but are not limited to, Government Code section 1090 and Public Contract Code sections 10410 and 10411.

As part of the conflict-of-interest requirements, individuals working on behalf of a Funding Recipient may be required by the State to file a Statement of Economic Interests (Fair Political Practices Commission Form 700) if it is determined that an individual is a consultant for Political Reform Act purposes.

Applicants should be aware that when submitting a proposal to the State, they will waive their rights to the confidentiality of the contents of the proposal. Once final awards have been announced by DWR, all proposals are subject to disclosure pursuant to the California Public Records Act (Gov. Code, § 6250 et seq.).

6.3 Indemnify and Hold Harmless

As part of the funding agreement, applicants shall indemnify and hold harmless the State, its officers, agents, and employees from any and all liability from any claims and damages (including inverse condemnation) arising from the planning, design, construction, repair, replacement, rehabilitation, maintenance, and operation of the project, and any breach of the funding agreement.

6.4 Labor Code Compliance

As part of the funding agreement, the funding recipient shall agree to be bound by all the provisions of the Labor Code regarding prevailing wages, and shall monitor all contracts subject to reimbursement from the funding agreement to assure that the prevailing wage provisions of the Labor Code are being met. Current Department of Industrial Relations (DIR) requirements may be found at: <http://www.dir.ca.gov/lcp.asp>. For more information, please refer to DIR's Public Works Manual at: <http://www.dir.ca.gov/dlse/PWManualCombined.pdf>. The funding recipient will also affirm that it is aware of the provisions of Section 3700 of the Labor Code, which requires every employer to be insured against liability for workers' compensation or to undertake self-insurance.

6.5 California Environmental Quality Act (CEQA)

All activities funded pursuant to the Program must comply with CEQA (Pub. Resources Code, § 21000 et seq.). Any work that is subject to CEQA and funded under a funding agreement shall not proceed until documents that satisfy the CEQA process are received by DWR, and DWR has completed its CEQA compliance. Any work funded under the Program that is subject to CEQA shall not proceed until and unless approved by DWR; such approval is fully discretionary. If CEQA compliance by the funding recipient is not complete at the time a funding agreement is executed by the parties, once DWR has considered the environmental documents, it may decide to require changes, alterations, or other mitigation to the Project; or to not fund the Project. Should the State decide to not fund the Project, the funding agreement shall be terminated.

6.6 Competitive Bidding and Procurement

A funding recipient's contracts with other entities for the acquisition of goods, services, and construction of public works with funds provided by the State must be in writing and shall comply with all applicable laws and regulations regarding the securing of competitive bids and undertaking competitive negotiations. If a funding recipient does not have a written policy to award contracts through a competitive bidding or sole source process, DWR of General Services' State Contracting Manual rules must be followed and are available at: <https://www.dgs.ca.gov/OLS/Resources/Page-Content/Office-of-Legal-Services-Resources-List-Folder/State-Contracting>.

6.7 Signage or Acknowledgement of Credit

To the extent practicable, a project supported by funds from the DSCR Program will include signage and other relevant forms of acknowledgement informing the public that the project received funds from DWR. Specific verbiage will be included in the final grant agreement.

6.8 Monitoring and Maintenance Reporting

As part of the funding agreement, the funding recipient shall prepare a monitoring and maintenance plan that outlines the plans for monitoring the restored site, assessing maintenance needs, and carrying out known and unanticipated maintenance actions necessary or required during and after completion of the Project. The funding recipient shall prepare a Draft Monitoring and Maintenance Plan during the design phase of the Project and submit it to the State in accordance with the funding agreement. The Final Monitoring and Maintenance Plan shall be approved prior to disbursement of grant funds for construction or monitoring activities.

Section 7 Guideline Amendments

These Guidelines may be amended after completion of the proposal solicitation. Amendments to the Guidelines will be publicly posted and made available for comment for at least 45 days.

6. **BASIC CONDITIONS.** State shall have no obligation to disburse money for the Project under this Funding Agreement until Funding Recipient has satisfied the following conditions:
 - A. For the term of this Funding Agreement, Funding Recipient submits timely Quarterly Progress Reports as required by Paragraph 13, "Submission of Reports."
 - B. Funding Recipient submits all deliverables as specified in Paragraph 13 of this Funding Agreement and in Exhibit A.
 - C. Prior to the commencement of construction or implementation activities, Funding Recipient shall submit the following to the State:
 - i. Final plans and specifications certified by a California Registered Civil Engineer as to compliance for the Project as listed in Exhibit A of this Funding Agreement.

 - c. State has completed its CEQA compliance review as a Responsible Agency, and
 - d. Funding Recipient receives written concurrence from the State of Lead Agency's CEQA document(s) and State notice of verification of environmental permit submittal.

State's concurrence of Lead Agency's CEQA documents is fully discretionary and shall constitute a condition precedent to any work (i.e., construction or implementation activities) for which it is required. Once CEQA documentation has been completed, State will consider the environmental documents and decide whether to continue to fund the Project or to require changes, alterations or other mitigation. Funding Recipient must also demonstrate that it has complied with all applicable requirements of the National Environmental Policy Act (NEPA) by submitting copies of any environmental documents, including environmental impact statements, Finding of No Significant Impact, mitigation monitoring programs, and environmental permits as may be required prior to beginning construction/implementation.

iii. A monitoring plan as required by Paragraph 15, "Project Monitoring Plan Requirements."

- 7. DISBURSEMENT OF FUNDS. State will disburse to Funding Recipient the amount approved, subject to the availability of funds through normal State processes. Notwithstanding any other provision of this Funding Agreement, no disbursement shall be required at any time or in any manner which is in violation of, or in conflict with, federal or state laws, rules, or regulations. Any and all money disbursed to Funding Recipient under this Funding Agreement shall be deposited in a separate account and shall be used solely to pay Eligible Project Costs.

Eligible Project Costs include the reasonable costs of studies, engineering, design, land and easement acquisition, legal fees, preparation of environmental documentation, environmental mitigations, monitoring, and project construction. Reimbursable administrative expenses are the necessary costs incidental but directly related to the Project included in this Agreement. Work performed on the Project after **<insert date>** shall be eligible for reimbursement.

Costs that are not eligible for reimbursement include, but are not limited to the following items:

- A. Costs, other than those noted above, incurred prior to **<insert date>**.
- B. Operation and maintenance costs, including post construction performance and monitoring costs.
- C. Purchase of equipment not an integral part of the Project.
- D. Establishing a reserve fund.
- E. Purchase of water supply.
- F. Monitoring and assessment costs for efforts required after Project construction is complete.

- G. Replacement of existing funding sources (e.g., bridge loans).
 - H. Support of existing agency requirements and mandates (e.g., punitive regulatory agency requirement).
 - I. Purchase of land in excess of the minimum required acreage necessary to operate as an integral part of a project, as set forth and detailed by engineering and feasibility studies, or land purchased prior to <insert appropriate date, such date limitations included in the program guidelines/PSP, grant award date, effective date of agreement.>
 - J. Overhead and indirect costs. “Indirect Costs” means those costs that are incurred for a common or joint purpose benefiting more than one cost objective and are not readily assignable to the funded project (i.e., costs that are not directly related to the funded project). Examples of Indirect Costs include, but are not limited to: central service costs; general administration of the Funding Recipient; non-project-specific accounting and personnel services performed within the Funding Recipient’s organization; depreciation or use allowances on buildings and equipment; the costs of operating and maintaining non-project-specific facilities; tuition; conference fees; and, generic overhead or markup. This prohibition applies to the Funding Recipient and any subcontract or sub-agreement for work on the Project that will be reimbursed pursuant to this Agreement.
 - K. Payment of Federal and State taxes.
 - L. Costs incurred as part of any necessary response and cleanup activities required under the Comprehensive Environmental Response, Compensation, and Liability Act; Resource Conservation and Recovery Act; Hazardous Substances Account Act; or other applicable law.
9. **METHOD OF PAYMENT.** After the disbursement requirements in Paragraph 6 “Basic Conditions” are met, State will disburse the whole or portions of State funding to Funding Recipient, following receipt from Funding Recipient via US mail or Express mail delivery of a “wet signature” invoice, or an electronic invoice certified and transmitted via DocuSign for costs incurred, including Cost Share, and timely Quarterly Progress Reports as required by Paragraph 13, “Submission of Reports.” Payment will be made no more frequently than quarterly, in arrears, upon receipt of an invoice bearing the Funding Agreement number. State will notify Funding Recipient, in a timely manner, whenever, upon review of an Invoice, State determines that any portion or portions of the costs claimed are not Eligible Project Costs or is not supported by documentation or receipts acceptable to State. Funding Recipient may, within thirty (30) calendar days of the date of receipt of such notice, submit additional documentation to State to cure such deficiency(ies). If Funding Recipient fails to submit adequate documentation curing the deficiency(ies), State will adjust the pending invoice by the amount of ineligible or unapproved costs.

Invoices submitted by Funding Recipient shall include the following information:

- A. Costs incurred for work performed in implementing the Project during the period identified in the particular invoice.
- B. Costs incurred for any interests in real property (land or easements) that have been necessarily acquired for the Project during the period identified in the particular invoice for the implementation of the Project.
- C. Invoices shall be submitted on forms provided by State and shall meet the following format requirements:

- i. Invoices must contain the date of the invoice, the time period covered by the invoice, and the total amount due.
- ii. Invoices must be itemized based on the categories (i.e., tasks) specified in Exhibit B. The amount claimed for salaries/wages/consultant fees must include a calculation formula (i.e., hours or days worked times the hourly or daily rate = the total amount claimed).
- iii. One set of sufficient evidence (i.e., receipts, copies of checks, time sheets) must be provided for all costs included in the invoice.
- iv. Each invoice shall clearly delineate those costs claimed for reimbursement from the State's funding amount, as depicted in Paragraph 4, "Funding Amount" and those costs that represent Funding Recipient's costs, as applicable, in Paragraph 5, "Funding Recipient Cost Share."
- v. Original signature and date (in ink) of Funding Recipient's Project Representative. Submit the original "wet signature" copy of the invoice form to the following address: Dam Safety and Climate Resilience Local Assistance Program, c/o Levi Warr, Program Manager, 3464 El Camino Avenue, Suite 200, Sacramento, California 95821 or an electronic signature certified and transmitted via DocuSign from authorized representative to Levi Warr, Program Manager.

All invoices submitted shall be accurate and signed under penalty of law. Any and all costs submitted pursuant to this Agreement shall only be for the tasks set forth herein. The Funding Recipient shall not submit any invoice containing costs that are ineligible or have been reimbursed from other funding sources unless required and specifically noted as such (i.e., cost share). Any eligible costs for which the Funding Recipient is seeking reimbursement shall not be reimbursed from any other source. Double or multiple billing for time, services, or any other eligible cost is illegal and constitutes fraud. Any suspected occurrences of fraud, forgery, embezzlement, theft, or any other misuse of public funds may result in suspension of disbursements of grant funds and/or termination of this Agreement requiring the repayment of all funds disbursed hereunder.
