

Are you interested in Public Works contracts?

We want to
Work
with you!

*Small Business / Micro-business and Disabled Veteran Business Enterprise Program
Investing in the future of California –Together we succeed!*

California law requires state agencies to adopt policies and procurement practices that will enable California-certified Small Business Micro-business and Disabled Veteran Business Enterprise Program (SB/MB/DVBE) firms to respectively achieve at least 25 percent and 3 percent shares of the state's total non-governmental procurement dollars.

DWR vigorously endorses the State of California's SB/MB and DVBE participation goals. Our personnel are expected to make every effort to help you successfully compete for state procurement dollars. We also actively encourage partnerships between non-certified prime contractors and SB/MB and DVBE subcontractors.

DWR's Direct Services for SBs/MBs and DVBEs

- Preview, upon request, SB/MB & DVBE bid documents for compliance with program requirements in advance of bid submission deadlines.
- Distribute, upon request, your capability statements and related informational material to our procurement staff and to other state agencies.
- Explain essential SB/MB & DVBE program requirements at pre-bid conferences, outreach events, and through one-on-one contacts (upon request).

- Suggest improvements, upon request, to enhance the visibility of the vendor profile you created in the online SB/MB/DVBE vendor database at: caleprocure.ca.gov

Public Works Contracts with DWR

We are one of six state departments with the statutory authority to conduct public works projects. We have a diverse portfolio of projects including but not limited to: dams, canals, tunnels, pipelines, flood protection facilities, and habitat restoration.
